VOTE FROM HOME

Vote safely in 2020.

COVID-19 is changing everything across the world. Your voice is more important than ever. HeadCount is here to help! Opportunities to vote by mail vary by state.

How can I vote safely during COVID-19?

[REQUEST YOUR BALLOT](#)[SEE YOUR STATE LAWS](#)[SIGN THE PETITION](#)

THE FACTS

- **No-excuse absentee voting is already the norm. Expanding it should not be controversial.** This is already the law in 35 states + DC for the November 2020 election.
- **This has never been a partisan issue, and does not create a partisan advantage.** A county-by-county study in California, Utah and Washington from the time the states started implementing vote-by-mail through the 2018 election shows no partisan advantage between pre and post vote-by-mail roll out.
- **Voting by mail does not lead to fraud.** Out of approximately 250 million of votes cast in the last 20 years, there were less than 150 instances of documented alleged voter fraud tied to mail-in ballots.
- **No one knows what the status of the virus will be in November, so we need to be prepared to vote fully by mail if needed.** Five states, including Utah, had already moved to full vote-by-mail systems well before the pandemic, so there is an existing model to work off of.

UNITED WE VOTE

HeadCount

Get tools to register voters on the streets, at the dinner table, and in your neighborhood.

HeadCount stands in solidarity with Americans that exercise their right to assemble in the fight against systemic racism, or any injustice or inequality. These principles are nonpartisan and inherently American.

We believe that meaningful change can come from the ballot box, especially in local elections where leaders closely impact our lives.

In an effort to support grassroots movements everywhere, we are offering resources to anyone wishing to register voters in public spaces – whether it be a rally, in a community meeting, in a classroom, a place of worship or a local business. We aim to empower individuals and groups, and drive positive outcomes out of the painful moments so many have endured on the path to change.

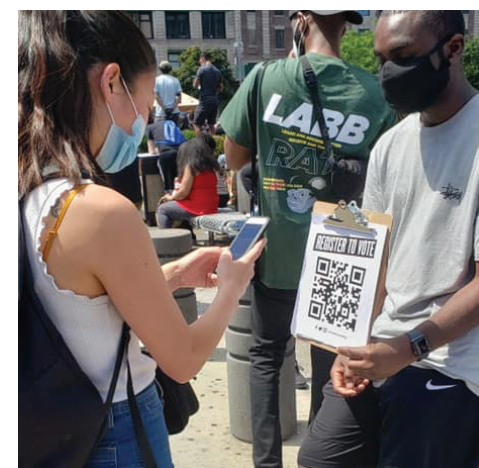

We invite anyone to download our resources below. The QR and text codes direct voters to this [website](#). From here they can register to vote, verify their status, or pledge to get friends to the polls.

HOW TO USE

- Print out multiple copies and distribute in large crowds. This way, people can register themselves at home if they want!
- Tape onto the *back* of your sign. Use the front of your sign to display your message, and inspire everyone behind you to register.
- Get creative– tape it to your t-shirt or make it a yard sign. Register voters everywhere.

We want to see these in action! Share photos of your signs to info@headcount.org or DM us on Instagram or Twitter at [@HeadCountOrg](#).

If you are a local community organization looking for tools to engage your community members in voting, please reach out to selamg@headcount.org.

iHeart Launches Get Out The Vote Campaign

By Radio Ink - July 27, 2020

f t in

iHeartMedia Philadelphia announced the "10,000 Voices" campaign to engage 10,000 voices for the presidential election in November. iHeartMedia Philadelphia will use its radio stations and digital products combined with HeadCount's voter engagement tools along with support from the Philadelphia's Commission on Office in the 100 days leading up to the election.

"10,000 Voices" engagement initiative which encourages friends or family members to register to vote.

iHeartMedia Philadelphia will promote voter registration on all of its radio stations and through its social media platforms, with encouragement from its stations. Due to the COVID-19 pandemic the campaign will also be promoted through its digital products.

"The '10,000 Voices' campaign will not only emphasize the importance of voting but also ensure our communities' voices are heard when we vote. We are excited to partner with HeadCount and said Derrick Corbett, iHeartMedia Philadelphia Senior Vice President of Marketing and Promotions.
